Re: Unit Train Loadout Seed Mix Amendment and Silo Blast Plan, Plateau Mining Corporation, Star Point Mine, C/007/006, Carbon County, Utah

Dear Mr. Haddock:

Plateau Mining Corporation (PMC) is submitting clean copies of the revised Table 341.220a, Revegetation Seed Mix, for the unit train loadout and areas near the conveyor and other structures associated with it and located on the Mancos Shale slopes. Furthermore, the reference in the text regarding the use of fertilizer and investigating the available methods to enhance soils derived from Mancos Shale located on page 200-27 has been removed.

The revised seed mix was developed using Ms. Susan White's expertise and has been reviewed by her for adequacy. The above mentioned revisions have been reviewed by the Division and found to be adequate, therefore, clean copies are being submitted for inclusion into the approved Plan.

Regarding the silo blast plan submitted to the Division on August 13, page 500-13 has been revised in order to create a new Exhibit 524 to facilitate the incorporation of this blast plan and any future blasting plan or design into the mining and reclamation plan. The Star Point Mine Plan addresses blasting and explosives, but did not have a place in the plan for inclusion of such. It has a Table 524.200a, Blasting Record, and states that a blasting record similar to that in Table 524.200a will be completed and submitted to the Division for approval prior to initiating any blast.

If PMC appeared somewhat confused when the Division requested the silo blasting plan be incorporated into the mining and reclamation plan, hopefully now the Division can understand why PMC was hesitant to do so, and not view PMC's reluctance as those of indifference to regulation.

If the Division has any questions, please do not hesitate to contact me at (435) 472-4741.

Sincerely,

Johnny Pappas
Sr. Environmental Engineer

Any other specific or special instructions required for insertion of this proposal into the Mining and Reclamation Plan?

The cover for the exhibit is included with this submittal, however the Division will need to make additional copies (as needed) of the Blast Plan they received on August 13, 2001. A copy of the blast plan needs to go behind the Exhibit 524 cover and then be incorporated into the permit.
